VE-1200 Pro Series

Veterinary Electrocardiograph

The state-of-the-art VE-1200 Pro Series is designed specifically for veterinary use. Equipped with the VE-SEMIP automatic diagnostics algorithm, these devices ensure accurate and efficient cardiac assessments for pets.

- Glass frontal panel, for easy cleaning and disinfection
- Full touchscreen with gesture operation
- Industrial-top hardware for accurate signal acquisition
- Advanced Vet ECG algorithm for timely disease diagnostic advice

VE-SEMIP

As the latest technological breakthrough tailored for veterinary ECG diagnostics, VE-SEMIP seamlessly integrates advanced filtering, waveform recognition, precise measurement, and automated diagnosis into a single algorithm, delivering immediate, actionable results as soon as data acquisition is completed.

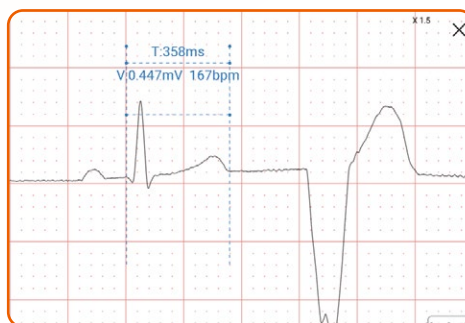

By dynamically optimizing for each animal species and body size, it ensures pinpoint accuracy and more reliable diagnostic insights. With VE-SEMIP, veterinary professionals gain fast, detailed, and trustworthy cardiac assessments for your pets.

All for precise diagnosis
